EDUCATION

- **Indian Institute of Technology, Madras** Sep 2022 – May 2026
BS in Data Science and Applications CGPA: 8.2/10

SKILLS

- **Languages:** SQL, Python, Bash, JavaScript, Java
- **Libraries & Frameworks:** NumPy, Pandas, Matplotlib, scikit-learn, PyTorch, TensorFlow
- **Tools & Platforms:** Git, GitHub, Linux, VS Code, Jupyter, PostgreSQL, Excel, Kaggle, GCP, APIs, Web Scraping, Dashboards
- **Core Concepts:** Machine Learning, Deep Learning, NLP, LLMs, Generative AI, MLOps, EDA, Business Analysis, Cloud Computing

EXPERIENCE

- **EIOS Technical Researcher, STEMONEF Enterprises** Jan 2026 – Present
 - Transformed 10+ datasets and 25+ research papers into structured insights using Python (Pandas), reducing manual analysis time by 30%.
 - Developed 20+ publication-quality visualizations using Matplotlib and Plotly, improving research engagement by 40%.
 - Collected and validated datasets using APIs and web scraping, ensuring data reliability.
- **Data Analyst Intern, Unified Mentor Pvt Ltd** Jan 2025 – Feb 2025
 - Cleaned and analyzed datasets containing 5,000+ records using EDA and statistical techniques.
 - Created 10+ dashboards and analytical reports, improving stakeholder decision-making efficiency by 25%.

PROJECTS

- **Predicting Bank Telemarketing Success** Python, ML
 - Built classification models using Random Forest, Gradient Boosting, and XGBoost.
 - Tuned hyperparameters using GridSearchCV and addressed class imbalance issues.
 - Automated prediction pipeline and prepared deployment-ready solution.
- **Deep Generative Models for Synthetic Data** Python, PyTorch
 - Designed and implemented GAN, DCGAN, WGAN-GP, and Diffusion models.
 - Performed data preprocessing, visualization, and model training.
 - Generated synthetic datasets for analytical evaluation and export.
- **Analytical Study of Durga Medical Hall** Excel
 - Analyzed retail sales and inventory data to identify operational inefficiencies.
 - Delivered actionable insights and strategic recommendations to improve performance.

COURSEWORK

DBMS, Data Structures & Algorithms, Statistics, Linear Algebra, Machine Learning, Deep Learning, Artificial Intelligence, Big Data

CERTIFICATIONS

- BSc in Programming and Data Science
- Implementing AI using Microsoft Azure
- Minor in Cloud Computing for AI
- Introduction to Reinforcement Learning
- Introduction to Graph Algorithms
